

Mine Owners, Fabricators and Natural Stone Business Survey Regarding MSHA and OSHA

This survey will be conducted quarterly by a designated person from each NSC member organization. Specific information to be shared, such as the citation #, entity or location and explanation of citation or mitigating circumstances helps to build a case to substantiate regulatory burdens. Elected officials have requested that this data be collected for further consideration of our regulatory concerns. All data compiled in the NSC database will not be broken down by member organizations and ALL RESPONDENTS WILL REMAIN ANONYMOUS.

1. Are you regulated by MSHA and/or OSHA?

2. Please rate the objectivity of the last inspection on scale of 1 (highly objective) to 5 (highly subjective). Explain if necessary:

3. If you received citations, do you feel that the citations were warranted or unwarranted?

4. What was the primary focus of the inspection; i.e. hazards, training, noise, dust, etc.?

5. Please rate the attitude of the inspector(s) from 1 (professional) to 5 (confrontational).

6. Please rate your attitude during the inspection from 1 (professional) to 5 (confrontational).

7. If the inspection resulted in a citation or citations, please list the MSHA and/or OSHA CFR Regulation(s) cited. These will appear on the citation itself.

8. Did the inspector offer any guidance or suggestions during the inspection?

9. Date of last inspection:

10. Other comments:

11. **Optional** Company/Contact Information:

Thank you for making your voice heard and sharing your circumstances for the future of the Natural Stone Mining and Fabrication Industry!
